Professional Experience

MERN stack developer　　　　2024 – present | kathmandu, Nepal
Ghum Nepal Innovation
- Developed and maintained the frontend of a booking system using React.js, Apollo Client, and GraphQL, ensuring seamless user interactions and real-time data handling.
- Implemented state management solutions with Context API and Apollo Cache to optimize client-server data flow, reducing latency and improving performance.
- Collaborated with cross-functional teams to integrate GraphQL APIs, ensuring robust backend-frontend synchronization for critical features.
- Utilized Git for version control and project tracking, streamlining team workflows and enhancing collaboration.

Freelance Full-Stack Developer
Self-Employed
- Developed custom web applications for clients including Tesla Infrastructure Solutions and Solutions Path Pvt Ltd, leveraging the MERN stack (MongoDB, Express.js, React, Node.js) and Redux for state management.
